

Lord of the Iron Fortress Errata

Errata Rule: Primary Sources

When you find a disagreement between two D&D® rules sources, unless an official errata file says otherwise, the primary source is correct. One example of a primary/secondary source is text taking precedence over a table entry. An individual spell description takes precedence when the short description in the beginning of the spells chapter disagrees.

If you have questions about this errata information, or if you wish to submit potential game-affecting errata, please send a specific note (include in the subject line "Errata" followed by the book and page number, with the errata question in the body of the message) to custserv@wizards.com.

Packleader Tavarus

Page 38

- The NPC listing for "Packleader Tavarus" should include his Challenge Rating (CR 17).
- Also, the Special Qualities for Packleader Tavarus list "DR 20/+3." This is incorrect; the correct listing should be "DR 20/+4."
